Many men who could use a car for business during the week and then over the week end for restful relaxation that would make them more efficient in business in one of the good used cars advertised for sale today in the Post-Dispatch classified "Automobiles" columns.

GRAND JURY'S COMMENT ON MILLSPAUGH'S ACTS, IN REPORT TO COURT

MEMPHIS, Mo., May 28. HE Scotland County grand jury's official comment re garding former Finance Commissioner Millspaugh in its re port to Judge Pettingill was:

"The State Banking Commisioner in his supervision of this bank was negligent. The required examination at the time of the forming of the trust com-pany was not made. In fact, the Citizens' Trust Co. of Gorin was never examined during its 13 months' existence. Although the condition of the bank was called to his attention, no act was taken to safeguard the noney in said bank. "No examination was made

at the time of the organization of the trust company, although the law says that the Finance Commissioner should make or have made such examination and be sure that the capital stock is paid up in actual cash. This examination doubtless would have saved the depositors thousands of dollars."

COOLIDGE PLANS **NEW ACTION TO GET WAR DEBTS**

President Contemplates a Definite Refusal of Any Further Loans to Nations Ignoring a Settlement.

Post-Dispatch Bureau,

20-23 Wyatt Building. WASHINGTON, May 28 .- Word had reached certain diplomatic establishments that President Coolidge is considering the first drastic step toward compelling settlement by nations that have taken no steps toward refunding their obligations o the United States Government Naturally there is considerable agiation about the French, Italian and Belgian embassies.

What is contemplated is a defi-nite refusal to give any further loans by American bankers to the Governments that have shown no disposition to settle. It sounds mild enough, as the Government has no power to forbid such loans. and does not even involve an affirmative declaration against lotation of foreign securities.

What will happen is merely the for example, asks the State Department, according to custom and precedent, if there is any objection to a stated loan, the answer wi depend on whether the country leiting the money is endeavoring

Government's Sanction Vital. The effect of withholding di approval of a suggested loan w e as immediate as forbidding or no American has ever gon ahead with such an enterprise cept with the Government's counte

She is in the mar for another \$50,000,000, and question before the White House, the State Department and the Debt ommission, is whether this does not furnish the opportunity : make a precedent.

Application of the principle the larger debtors. France and Italy, would be more comfortable if they came under a general rule that had already been applied than either of them was the first to neet the new situation.

This represents a serious depar-ure from the former rule about oreign loans. Heretofore, the pur ose for which the money was beng raised has been the determin ing factor. The President often has announced that, while the Administration would encourage loans for constructive and economic purhose meant for the enlargement

f war establishments. If the new test is imposed, what the money is to be spent for will have nothing to do with the case.

Kahn of the banking firm of Kuhn, Loeb & Co., of which he is a partner, today denied that the banker had made any reference to a debt settlement in a recent speech in Paris and asserted that his remarks had been reported in-

The firm said that "they had been advised by Kahn that his remarks, which were made at a private luncheon, at which no representatives of the press were present, had not been accurately re-ported, and had no reference to the debt settlement."

"Now often in the dreary night ! Clasp my burning hands' Upon those throbbing, sleepless lids, O'er eyes like glowing brands, And wonder in my weary brain if, Hap'ly, when I'm dead, My old boon friend for love of me Will give my bairnies bread.

"Oh, did the poor not help the poor Each in their simple way. With humble gift and kindly word, God pity them, I say. For many a man who clasped my Hand with piedges o'er the bowl When the wine halo passed away Proved but a niggard soul.

"Oh, wift thou gang o' nichts, Jemie, to my forsaken hearth And be as thou hast been to me, the truest friend on earth? Sae sweetly in your linnet voice You'll sing my weans to rest.

While Jeanie leans her weary head

Uniform flexibility

means many extra miles of service from balloon tires

BALLOON tires must be more than just flexible. They must be uniformly flexible. The tread, as well as the side-walls, must be flexible.

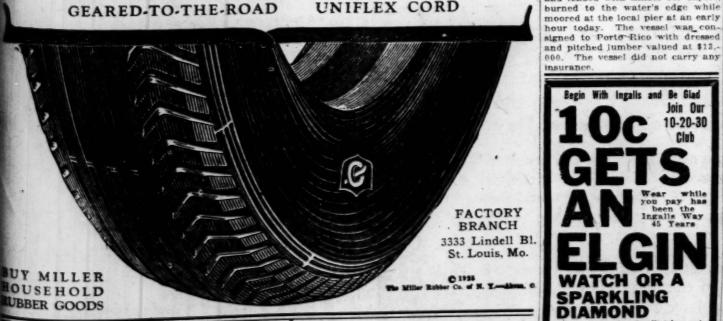

Miller Uniflex Cord Balloons are built that way. The whole tire flexes evenly from top to bottom. No concentrated stress; no sharp bending of the cords; no excessive distortion. Each ply flexes in harmony with every other ply-internal friction is reduced to the minimum.

The result is an even-wearing tire that'll give you more miles, better service and more complete satisfaction than you ever thought possible in a pneumatic tire.

Put on Millers and travel on tires that are worldstandard for quality and endurance. Dealers everywhere-look for the Miller sign.

Employe of Shipping Firm Wins \$190,000-Woman and Fiance Get \$50,000.

to Associated Press.
LONDON, May 28.—Manna's easy victory in the derby was sideracked in the discussions of race followers today for some of the aprices of Lady Luck as exemplified in the outcome of various sweepstakes.

James Carew, employe of a Liverpool shipping firm, leaped into the limelight and sudden wealth when it was found he held the coveted ticket in the great Calcutta sweepstakes. He had sold two quarter interests in his chance for about \$10,000, but will still be able to collect approxi-mately \$190,000.

Carew went home yesterday afternoon instead of following the erowds to Epsem Downs for the race, and was smoking peacefully. in his room when Manna can-tered under the wire away ahead of the field, making him inde-pendent for life.

H. E. Morriss, owner of Manna, in addition to taking the Derby stakes, is credited by the Daily Mail with having the good fortune to share in the rich London Stock Exchange sweepstakes, worth about \$242.500. The winning ticket was held by Drummer Graves an insurance manager. Graves, an insurance manager, and G. R. Bateson, a clerk, but, according to the Mail, they parted with half a share to Merriss for £2,900, or roughty \$14,000.

The latest big winning reported is that of a widow, Mrs. Anna Ellictt, an assistant in a depart-ment store. She wen the second prize in the Baltic Exchange Sweepstakes, worth 20,000 pounds. aterling. Previously she had sold a half share of her ticket, which called for Manna, to a friend for an unnamed price. She had conveyed a quarter share to her flauce and thus the couple will be able to set up housekeeping with 10,000 pounds (\$50,000) in their hope

None of the other winnings was on such a scale as these hig sweepstakes, the next figures known being that of R. C. Parr, a member of the Royal Automobile Club, whose ticket brought him £2000, while other members of the club drew prizes of f1100 and f700. There were two sweepstakes in the Automobile Club. Sir Charles Hyde drawing Manna in the sec-ond with a prize of \$1000.

Steve Donoghue, who won his sixth Derby vesterday, riding Manna, is the hero of the hour The race brought him not only ame, but considerable cash, for it was reported in racing circles that Morriss had made him a presnt of about \$10,000 sterling (\$50,

Pyorrhea is a disease of the gumsnot the teeth

That's one outstanding fact everybody should know. And if everybody did know it, the number of Pyorrhea's victims would soon be greatly reduced. You may take splendid care of your teeth-

brush them several times a day-and still. get Pyorrhea. Once Pyorrhea secures a firm hold, pus pockets form, gums become weak and flabby, the teeth loosen and fall out no matter how white and sound they may be. Forhan's means healthy gums

It contains the right proportion of Forhan's Astringent, as used by the dental profession in the treatment of Pyorthea. Forhan's protects and preserves the gums, keeping them in a firm, pink, healthy condition, cleans and whitens the teeth, and keeps the mouth sweet, fresh and wholesome. If you don't care to discontinue the tooth paste you are now using, at least brush your teeth and gums once a day with Forhan's. Forhan's is more than a tooth paste; it checks Pyorrhea. GOLD STAR MOTHER PLACES WREATH ON UNKNOWN'S TOMB Kindred Organization of French Women Attends Impressive

Ceremony in Paris. PARIS, May 28.—The group of American gold star mothers, whose ranks have been slightly depleted by attacks of grip, caused by the fickle temperature of Paris and today's showers, placed a wreath on the tomb of the unknown soldier yesterday afternoon. They were accompanied by a party of French women representing the "Souvenir Français" Association, who are

heir sisters in sorrow. The ceremony was brief and in-ormal, but impressive. The French and American mothers, despite their differences in language, are finding a common bend of sympathy. After the exercises the whole party attended a home-like reception in the apartment of Mrs. Johnston Preston, whose son was shot down over Verdun in Septem

ber, 1918. At the reception Robert P. Skinner, the American Consul-General represented the United States Government. Count Fleury of the French Government and Countess de Caen welcomed the Americans on behalf of the French mothers, assuring them that French wom n would, on memorial and on All Saints' days, never fail to decorate their boys' graves. Mrs. H. A. Vedder expressed her thanks in behalf of the American delegation.

By Leased Wire From the New York Bureau of the Post-Dispatch. NEW YORK, May 28.—A young woman, identified as Mrs. Marga-ret Goodli when she died last night from inhaling gas in a squalid ten-ement at 634 East 134th street, was two hours later declared by the police to be Miss Margaret Nye, 37 years old, of 660 Riverside drive. Living in the same two-room apart-ment was an Italian laborer named Jim Goodli.

His age—61 years—was proof of his fatherly intentions, he said.

BILL PROPOSING MUNICIPAL

HEATING PLANT IS REVISED Heating City Hospital.

Committee for its approval today by Director of Public Utilities Wall. Funds for construction of the proposed building would come from the \$1,000,000 item in the bond issue for a municipal power plant and garage. The bonds for the item were sold last summer, but work has been held up because of disagreement on specifications.

Director Wall's proposed ordinance places the building, as hereofore planned, at Twelfth bouleard and Clark avenue. The buildheating plant will provide heat for all the structures, built or to be built, in the proposed memorial plaza. It will also include a fire ngine house, repair shop for municipal automobiles and a garage for municipal machines. Under Director Wall's plan the city would buy its electric power for lights and elevators from a public service company, stepping it down to the proper voltage in transformers oused in the proposed new power A bill approved by the Citizens'

Committee last summer for erection of the power plant building included a provision for construction of a steam pipe line from the building to city hospital, the heat thus provided to replace that given by the hospital plant. Wall emit-ted this provision in his revised bill, pointing out that such a line would prove less reliable than the plant already at the hospital and in addition would cost \$176,000 to install. The proposal for a pipe stationary engineers and others and died in the Board of Aldermen.

MOTION TO CENSURE SPEAKER OF HOUSE OF COMMONS FAILS

Liberal Party of Which Pre-siding Officer Is Member.

By the Associated Press.
LONDON, May 28.—The House of Commons by a vote of 306 to 27 today rejected a Liberal motion for a vote of censure of the speaker, the Right Hon. John Henry

The motion to censure the speaker, an unusual proposal in the House of Commons, had additional importance from the fact that it was made by the Liberal party, o which the speaker is a member. The expressed grievance of the Liberal party against the speaker vas that "contrary to recent preceents," he granted a closure of the first day's debate during the second reading of the finance bill. thereby preventing the Liberals from making as strong a case in the debate as they desired. The motion for censure maintained that this action of the speaker did not accord the Liberals the protection due minorities in the House.

The motion was supported by David Lloyd George, Sir John Si mon and other Liberal leaders. It was known in advance that the proposal for censure would be de-feated as both the Conservative and Labor parties opposed it.

The office of speaker of the British House of Commons is not involved in partisan politics. The position has come to be regarded as almost sacrosanct. The last occasion when the House was called upon to discuss a motion to censure the speaker was in 1902 when Irish Nationalists expressed a grievance against the speaker. In the course of the debate on that occasion it was said there had been no similar discussion in Parliament since 1770.

Over his coffee

Admiral Dewey rose to speak

the great hero of our war with Spain. In this historic hotel the South could most fittingly do honor to Admiral Dewey. For years the Maxwell House had been celebrated throughout all Dixie for its delicious

food—and above all for its coffee. It was this special blend of coffee, wonderfully rich-bodied and mellow,

that was served to the Admiral on that memorable evening long ago. And it is this blend that critical families

everywhere have heard of and secured for their own tables.

Today, blended and roasted in just the same way, it is

supplied to them in sealed tins. Its rich flavor and aroma are now offered to you. Ask your grocer today for one of the blue tins of Maxwell House Coffee.
